

3rd ISPRS WG VI/5 & Student Consortium Summer School
June 27 – July 1 2008
Nanjing, China

The 3rd Summer School of ISPRS Student Consortium is designed for graduate, post-graduate students and young researchers. It will be run in Nanjing from June 27 to July 1 2008, jointly with the biannual Chinese Doctoral Students' Forum in GIS. The local organizers will support the travel expenses between Beijing (the ISPRS Congress venue) and Nanjing for registered students. Four to six (4-6) tutorials and interactive discussions will be organized as follows:

- LiDAR
- Information Extraction of high-resolution imagery
- Geo-spatial data fusion
- Grid-based service for geo-spatial information
- 3D GIS
